

# CHEMATIC® L CLEANER

## DESCRIPTION

Chematic® L Cleaner is a specialty detergent developed for the removal of Eudragit® L series polymer and associated coatings found in pharmaceutical manufacturing operations. This formulation readily penetrates and removes multiple layers of product and polymer associated with these coatings. It is also effective at removing the colored pigments often found in these coatings like talc, iron oxide and titanium dioxide. Chematic® L Cleaner is effective in both manual and CIP applications.
