

CHEMATIC® RL/RS CLEANER

DESCRIPTION

Chematic® RL/RS Cleaner is a specialty cleaner that developed for the removal of Eudragit® RL/RS coatings found in pharmaceutical manufacturing operations. This formulation readily cleans the multiple layers of product and polymer associated with the use of these coatings. Chematic® RL/RS Cleaner is effective in both manual and CIP applications.

ALKALINE

PHYSICAL PROPERTIES

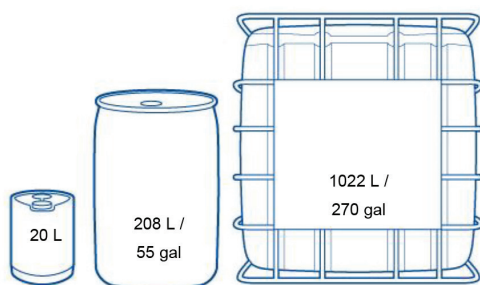

Physical Form	Liquid	Specific Gravity at 68°F	_____
Appearance	_____	Foaming	Low Foaming @ Use Temperature
pH Use Solution	2.0 - 3.0 (10% v/v)	Typical Storage Temperature	_____

SUBSTRATE COMPATIBILITY

- Product is safe on stainless steel, glass and most plastics and polymers.
- Product should be thoroughly rinsed off surfaces.

Precautionary Statement: Please refer to the current Safety Data Sheet.

CLEANING VALIDATION SUPPORT

HPLC, TOC and other analytical methods are provided by Dober.

APPLICATIONS & USAGE

CIP COP Spray

Concentrations from 4%-8% v/v
Temperatures of 50°C–80°C

Manual

Concentrations from 4%-8% v/v
Temperatures of 25°C–50°C
